Test Case ID	Name of Module	Test Case Description	Pre-conditions	Test Steps	Test Data	Expected Results	Actual Result	Test Result
FR-1_UT01	User Registration & Login	Reject invalid email format at registration	User is on the registration page	1. Navigate to Register page 2. Enter an email in an invalid format 3. Fill remaining fields validly 4. Click Submit	email = john.doe@@mail	Error "Enter a valid email address" shown; registration blocked	Pending	Pending
FR-1_UT02	User Registration & Login	Reject weak password at registration	User is on the registration page	1. Navigate to Register page 2. Enter password shorter than policy minimum 3. Click Submit	password = 123	Error "Password must be at least 8 characters" shown	Pending	Pending
FR-1_UT03	User Registration & Login	Reject registration with blank mandatory phone field	Registration form is open	1. Fill all fields except phone number 2. Click Submit	phone = (blank)	Error "Phone number is required" shown	Pending	Pending
FR-1_IT01	User Registration & Login	Register new user with valid details creates DB record	Database is reachable	1. Enter valid email, phone, password 2. Click Submit 3. Query Users table	email = anu@example.com, password = Passw0rd!	New row inserted in Users table with hashed password; success message shown	Pending	Pending
FR-1_IT02	User Registration & Login	Login authenticates against stored credentials	A user account already exists in DB	1. Navigate to Login page 2. Enter registered email/phone and correct password 3. Click Login	Registered user's credentials	Session token generated; user redirected to home page	Pending	Pending
FR-1_IT03	User Registration & Login	Prevent duplicate registration for existing email	An account with the email already exists	1. Attempt registration using an already-registered email 2. Click Submit	email = existing_user@example.com	Error "Account already exists" shown; no duplicate row created	Pending	Pending
FR-1_ST01	User Registration & Login	End-to-end register, logout, re-login	New device / fresh session	1. Register a new account 2. Log out 3. Log back in with same credentials	Newly created credentials	User successfully accesses dashboard after re-login	Pending	Pending
FR-1_ST02	User Registration & Login	Account lockout warning after repeated failed logins	Valid registered account exists	1. Enter correct email with wrong password 3 times consecutively	3x incorrect password attempts	Warning shown / temporary lockout triggered per security policy	Pending	Pending
FR-2_UT01	Book Search	Search returns matches for valid title keyword	Catalog contains books	1. Enter a valid partial book title 2. Click Search	query = "Harry"	All books with matching title substring are returned	Pending	Pending
FR-2_UT02	Book Search	Search with empty query handled gracefully	Search bar is empty	1. Leave search field blank 2. Click Search	query = (blank)	Prompt "Enter a search term" shown, no crash	Pending	Pending
FR-2_UT03	Book Search	Reject invalid price range filter (min > max)	Search filters panel open	1. Set min price greater than max price 2. Apply filter	min = 1000, max = 100	Error "Minimum price cannot exceed maximum price" shown	Pending	Pending

Test Case ID	Name of Module	Test Case Description	Pre-conditions	Test Steps	Test Data	Expected Results	Actual Result	Test Result
FR-2_IT01	Book Search	Title search queries DB and returns correct rows	Books table populated	1. Search by exact title 2. Verify results against DB query	title = "Clean Code"	Returned results match DB rows exactly	Pending	Pending
FR-2_IT02	Book Search	Combined genre + author filter integration	Books table populated with varied genres/authors	1. Apply genre filter 2. Apply author filter 3. Submit search	genre = Fiction, author = "R.K. Narayan"	Only books matching both filters are returned	Pending	Pending
FR-2_IT03	Book Search	Search by non-existent ISBN returns no results	Books table populated	1. Enter an ISBN not present in DB 2. Click Search	ISBN = 0000000000000	"No books found" message shown; zero results returned	Pending	Pending
FR-2_ST01	Book Search	End-to-end search to book detail navigation	User on homepage	1. Search for a book 2. Click a result from result list 3. Verify detail page loads	query = "Atomic Habits"	Correct book detail page opens with matching info	Pending	Pending
FR-2_ST02	Book Search	Search responds within performance threshold under normal load	Up to 500 concurrent simulated users	1. Execute search query under load test 2. Measure response time	Concurrent load = 500 users	Search results returned within 2 seconds (NFR-1)	Pending	Pending
FR-3_UT01	Book Details Display	Display all fields for a valid book ID	Book exists in catalog	1. Open book detail page for a valid book ID	book_id = valid ID	Price, availability, seller, condition, and reviews all rendered correctly	Pending	Pending
FR-3_UT02	Book Details Display	Handle book with zero reviews gracefully	Book has no reviews yet	1. Open detail page for a book with no reviews	book_id = new listing with 0 reviews	"No reviews yet" shown instead of error	Pending	Pending
FR-3_UT03	Book Details Display	Handle invalid/non-existent book ID	N/A	1. Navigate directly to a detail URL with an invalid book ID	book_id = 999999 (non-existent)	"Book not found" message / 404 page shown	Pending	Pending
FR-3_IT01	Book Details Display	Seller info correctly joined from Sellers table	Book linked to a valid seller record	1. Open book detail page 2. Verify seller name/rating shown matches Sellers table	book_id linked to seller_id = S101	Seller details displayed match DB record exactly	Pending	Pending
FR-3_IT02	Book Details Display	Stock count reflects latest DB value after change	Stock updated directly in DB	1. Update stock quantity in DB 2. Refresh book detail page	stock changed from 5 to 2	Detail page shows updated stock count of 2	Pending	Pending
FR-3_IT03	Book Details Display	Reviews section pulls correct records for the book	Multiple reviews exist across different books	1. Open detail page for Book A 2. Verify only Book A's reviews are listed	book_id = Book A	Only reviews tied to Book A are displayed, none from other books	Pending	Pending
FR-3_ST01	Book Details Display	End-to-end navigation from search to accurate detail view	Catalog populated	1. Search for a book 2. Open its detail page 3. Cross-check all displayed info against DB	Any valid book	All details on page match backend data exactly	Pending	Pending
FR-3_ST02	Book Details Display	Consistent stock shown to concurrent viewers of low-stock item	Book with stock = 1	1. Open the same book's detail page in two sessions simultaneously	stock = 1, viewed by 2 users at once	Both sessions show consistent, up-to-date stock value	Pending	Pending
FR-4_UT01	Shopping Cart	Add a single item to an empty cart	Cart is empty	1. Open a book detail page 2. Click "Add to Cart"	Any in-stock book	Cart shows 1 item with correct price	Pending	Pending
FR-4_UT02	Shopping Cart	Remove an item from a cart with multiple items	Cart has 3 items	1. Open cart 2. Click remove on one item	Cart with 3 items, remove item #2	Cart now shows 2 items; total recalculated	Pending	Pending

Test Case ID	Name of Module	Test Case Description	Pre-conditions	Test Steps	Test Data	Expected Results	Actual Result	Test Result
FR-4_UT03	Shopping Cart	Reject adding quantity exceeding available stock	Book has stock = 2	1. Attempt to add 5 units of a book to cart	requested qty = 5, stock = 2	Error "Only 2 units available" shown; cart not updated beyond stock	Pending	Pending
FR-4_IT01	Shopping Cart	Cart total recalculates correctly with price and quantity	Cart has items with varying prices/quantities	1. Add multiple books with different quantities 2. View cart total	Book A x2 @ ₹200, Book B x1 @ ₹150	Total = ₹550, matches sum of line items	Pending	Pending
FR-4_IT02	Shopping Cart	Cart persists across page reload for logged-in user	User is logged in with items in cart	1. Add items to cart 2. Refresh the page	2 items added before refresh	Same 2 items still present in cart after reload	Pending	Pending
FR-4_IT03	Shopping Cart	Same book from two different sellers kept as separate line items	Same title listed by two sellers	1. Add Book X from Seller 1 2. Add Book X from Seller 2	Book X (Seller 1), Book X (Seller 2)	Cart shows two distinct line items, not merged	Pending	Pending
FR-4_ST01	Shopping Cart	End-to-end add, update quantity, and proceed to checkout	User logged in	1. Add multiple books to cart 2. Update quantity of one item 3. Click "Proceed to Checkout"	3 books added, 1 quantity updated	Checkout page loads with correct items and updated total	Pending	Pending
FR-4_ST02	Shopping Cart	Cart reflects price change made by seller after item was added	Item already in cart; seller changes price	1. Add book to cart 2. Seller updates price 3. Revisit cart	Original price ₹300 changed to ₹350	Cart shows updated price or flags the change before checkout	Pending	Pending
FR-5_UT01	Checkout & Payment	Reject checkout with missing shipping address	Cart has items	1. Proceed to checkout 2. Leave address field blank 3. Click Continue	address = (blank)	Error "Shipping address is required" shown	Pending	Pending
FR-5_UT02	Checkout & Payment	Reject invalid card number format	Payment step reached	1. Enter a card number with invalid format 2. Click Pay	card number = 1234	Error "Invalid card number" shown	Pending	Pending
FR-5_UT03	Checkout & Payment	Correctly calculate order total including tax and shipping	Cart subtotal known	1. Compute total = subtotal + tax + shipping	subtotal = ₹500, tax = ₹25, shipping = ₹50	Calculated total = ₹575	Pending	Pending
FR-5_IT01	Checkout & Payment	Successful payment updates order status to Paid	Valid payment gateway sandbox available	1. Complete checkout with valid test card 2. Verify order status in DB	Valid test card details	Payment succeeds; order status set to "Paid" in DB	Pending	Pending
FR-5_IT02	Checkout & Payment	Declined payment leaves order unpaid and cart intact	Payment gateway sandbox available	1. Complete checkout using a card configured to decline	Test card = decline scenario	Order status = "Payment Failed"; cart items retained for retry	Pending	Pending
FR-5_IT03	Checkout & Payment	Stock decremented after successful payment	Book stock known before purchase	1. Purchase a book 2. Verify stock count after payment success	stock before = 10, qty purchased = 1	Stock updated to 9 in DB immediately after payment success	Pending	Pending
FR-5_ST01	Checkout & Payment	End-to-end checkout from cart to payment confirmation	User logged in with items in cart	1. Proceed to checkout 2. Enter address 3. Enter valid payment details 4. Confirm order	Valid address + valid test card	Order confirmation page shown with correct order ID and total	Pending	Pending
FR-5_ST02	Checkout & Payment	Concurrent checkout for last unit of stock by two users	Book stock = 1	1. Two users add the same book to cart simultaneously 2. Both attempt checkout at the same time	stock = 1, 2 concurrent buyers	Only one order succeeds; the other is informed item is out of stock	Pending	Pending

Test Case ID	Name of Module	Test Case Description	Pre-conditions	Test Steps	Test Data	Expected Results	Actual Result	Test Result
FR-6_UT01	Order Confirmation Notification	Email template renders correct order details	Order object available	1. Generate confirmation email content for a given order	Order with 2 items, total ₹450	Email body contains correct item names, quantities, and total	Pending	Pending
FR-6_UT02	Order Confirmation Notification	Handle missing email address without crashing	User profile has no email on file	1. Trigger notification for a user without an email	email = null	Notification logic logs the issue and skips email send gracefully	Pending	Pending
FR-6_UT03	Order Confirmation Notification	SMS content includes correctly formatted order ID	Order object available	1. Generate SMS content for a placed order	order_id = ORD10234	SMS text includes "ORD10234" in expected format	Pending	Pending
FR-6_IT01	Order Confirmation Notification	Order placement triggers email service integration	Email service configured	1. Place a valid order 2. Verify email service call is made	Any valid order	Email service API is called and returns queued/sent status	Pending	Pending
FR-6_IT02	Order Confirmation Notification	Order placement triggers SMS integration when phone available	User has phone number saved	1. Place a valid order for a user with phone on file	phone = +91XXXXXXXXXX	SMS service call triggered with correct order summary	Pending	Pending
FR-6_IT03	Order Confirmation Notification	Notification service timeout does not block order creation	Notification service simulated as down	1. Place an order while notification service is unreachable	Notification service = down	Order is still created successfully; failure is logged for retry	Pending	Pending
FR-6_ST01	Order Confirmation Notification	End-to-end order placement and email receipt	User has valid email on file	1. Place an order 2. Check inbox for confirmation email	Valid order + valid inbox	Confirmation email received within acceptable time window	Pending	Pending
FR-6_ST02	Order Confirmation Notification	Notification content matches actual order exactly	Order placed with specific items	1. Place order 2. Compare received notification against order record	Order with 3 specific items	Item names, prices, and order ID in notification exactly match order record	Pending	Pending
FR-7_UT01	Seller Book Listing	Reject new listing with missing price	Seller on "Add Listing" form	1. Fill all fields except price 2. Click Submit	price = (blank)	Error "Price is required" shown	Pending	Pending
FR-7_UT02	Seller Book Listing	Reject listing with negative price	Seller on "Add Listing" form	1. Enter a negative value in price field 2. Click Submit	price = -100	Error "Price must be a positive value" shown	Pending	Pending
FR-7_UT03	Seller Book Listing	Successfully edit an existing listing's fields	Seller owns an active listing	1. Open edit form for existing listing 2. Change description/price 3. Save	Updated price = ₹250	Listing fields updated and saved successfully	Pending	Pending
FR-7_IT01	Seller Book Listing	New listing appears in catalog search immediately	Search index/catalog is live	1. Seller adds a new listing 2. Buyer searches for that title	New listing: "Deep Work"	New listing appears in buyer search results	Pending	Pending
FR-7_IT02	Seller Book Listing	Deleting a listing preserves historic order records	Listing has past completed orders	1. Delete the listing 2. Query past orders referencing it	Listing with 2 past orders	Listing removed from catalog; past order records remain intact (FK integrity preserved)	Pending	Pending
FR-7_IT03	Seller Book Listing	Listing condition field restricted to allowed values	Add/Edit listing form	1. Attempt to save listing with condition value outside allowed enum	condition = "damaged" (not in enum)	Save rejected with validation error; only "new"/"used" accepted	Pending	Pending

Test Case ID	Name of Module	Test Case Description	Pre-conditions	Test Steps	Test Data	Expected Results	Actual Result	Test Result
FR-7_ST01	Seller Book Listing	End-to-end seller adds listing and buyer finds it	Seller and buyer accounts both exist	1. Seller adds new book listing 2. Buyer searches and opens the listing	New listing added by seller	Buyer successfully views the newly added listing with correct details	Pending	Pending
FR-7_ST02	Seller Book Listing	Price edit reflects at checkout for item already in another buyer's cart	Buyer has item in cart; seller edits price	1. Buyer adds item to cart 2. Seller updates price 3. Buyer proceeds to checkout	Original ₹300 -> updated ₹350	Checkout reflects the updated price, not the stale cart price	Pending	Pending
FR-8_UT01	Seller Order Management	Seller sees only their own incoming orders	Multiple sellers have orders in system	1. Log in as Seller A 2. Open Orders dashboard	Seller A has 3 orders; Seller B has 2	Only Seller A's 3 orders are listed	Pending	Pending
FR-8_UT02	Seller Order Management	Reject invalid order status value on update	Seller viewing an order	1. Attempt to set order status to an unsupported value	status = "in_transitX" (invalid)	Update rejected; error shown for invalid status	Pending	Pending
FR-8_UT03	Seller Order Management	Sort orders by date correctly	Seller has multiple orders on different dates	1. Apply "Sort by date" on orders list	Orders dated across 3 different days	Orders displayed in correct chronological order	Pending	Pending
FR-8_IT01	Seller Order Management	Marking order shipped updates buyer-facing tracking	Order exists in "Placed" state	1. Seller marks order as "Shipped" 2. Buyer opens order tracking page	Order status changed to Shipped	Buyer's tracking page reflects "Shipped" status	Pending	Pending
FR-8_IT02	Seller Order Management	Seller cannot access another seller's order records	Two sellers, separate order sets	1. Log in as Seller A 2. Attempt to open Seller B's order via direct URL/ID	Seller B's order ID used by Seller A	Access denied / 403 error shown	Pending	Pending
FR-8_IT03	Seller Order Management	Order list correctly joins order, book, and buyer data	Orders exist with linked book and buyer records	1. Open Orders dashboard 2. Verify displayed buyer name and book title against DB	Sample order with known buyer/book	Displayed data matches DB join results exactly	Pending	Pending
FR-8_ST01	Seller Order Management	End-to-end order receipt to shipped status visible to buyer	New order placed for seller's listing	1. Seller receives new order notification 2. Processes and marks it shipped 3. Buyer checks tracking	One new order	Buyer sees status update to "Shipped" after seller action	Pending	Pending
FR-8_ST02	Seller Order Management	Bulk status update across multiple orders completes without partial failure	Seller selects multiple orders	1. Select 5 orders 2. Apply bulk "Mark as Shipped" action	5 selected orders	All 5 orders updated successfully; no partial/inconsistent state	Pending	Pending
FR-9_UT01	Order Tracking	Reject status value outside allowed set	N/A	1. Attempt to set order status to unsupported value internally	status = "lost_in_space"	Validation rejects value; only placed/shipped/out for delivery/delivered allowed	Pending	Pending
FR-9_UT02	Order Tracking	Handle lookup of non-existent order ID	N/A	1. Query tracking page with an invalid order ID	order_id = 999999	"Order not found" message shown, no crash	Pending	Pending
FR-9_UT03	Order Tracking	Correctly compute estimated delivery date	Shipping date and standard transit time known	1. Compute estimated delivery = ship date + transit days	ship date = Day 0, transit = 5 days	Estimated delivery = Day 5	Pending	Pending
FR-9_IT01	Order Tracking	Tracking page fetches live status from logistics provider API	Logistics API integration configured	1. Open tracking page for an order in transit	Order shipped via logistics partner	Current status fetched and displayed matches logistics API response	Pending	Pending

Test Case ID	Name of Module	Test Case Description	Pre-conditions	Test Steps	Test Data	Expected Results	Actual Result	Test Result
FR-9_IT02	Order Tracking	Logistics webhook update reflects in order record	Webhook endpoint configured	1. Simulate logistics webhook call with status update 2. Query order record	Webhook payload: status = "Out for Delivery"	Order record updated to "Out for Delivery" in DB	Pending	Pending
FR-9_IT03	Order Tracking	Tracking timeline pulled correctly from status log table	Order has multiple historical status entries	1. Open tracking page 2. Compare shown timeline to status log table	Order with 4 status changes logged	All 4 timeline entries displayed in correct chronological order	Pending	Pending
FR-9_ST01	Order Tracking	End-to-end tracking from placed to delivered	New order placed	1. Place order 2. Track status through Placed -> Shipped -> Out for Delivery -> Delivered	One full order lifecycle	Each stage is visible and updates correctly on tracking page	Pending	Pending
FR-9_ST02	Order Tracking	Tracking page degrades gracefully during logistics API downtime	Logistics API simulated as unreachable	1. Open tracking page while logistics API is down	Logistics API = unreachable	Last known status shown with a notice, instead of an error/crash	Pending	Pending
FR-10_UT01	Ratings & Reviews	Reject rating value outside allowed range	Review form open	1. Enter a rating of 0 or 6 on a 1-5 scale 2. Submit	rating = 0	Error "Rating must be between 1 and 5" shown	Pending	Pending
FR-10_UT02	Ratings & Reviews	Reject empty review text when text is mandatory	Review form open	1. Leave review text blank 2. Submit	review text = (blank)	Error "Review text is required" shown	Pending	Pending
FR-10_UT03	Ratings & Reviews	Correctly calculate average rating for a book	Book has multiple ratings	1. Compute average of all ratings for a book	Ratings: 4, 5, 3, 4	Average calculated = 4.0	Pending	Pending
FR-10_IT01	Ratings & Reviews	Only verified purchasers can submit a review	Order history table available	1. Attempt to submit a review for a book never purchased by the user	User has no order for this book	Submission blocked with "You must purchase this book to review it"	Pending	Pending
FR-10_IT02	Ratings & Reviews	New review updates the book's displayed average rating	Book has existing reviews	1. Submit a new valid review 2. Reload book detail page	New rating = 5, previous average = 3.5	Detail page shows recalculated average rating including the new review	Pending	Pending
FR-10_IT03	Ratings & Reviews	Duplicate review from same buyer for same order prevented	Buyer already reviewed this order's book	1. Attempt to submit a second review for the same purchased book/order	Existing review present for this order	Error "You have already reviewed this item" shown	Pending	Pending
FR-10_ST01	Ratings & Reviews	End-to-end purchase, review, and visibility to others	New completed purchase	1. Complete a purchase 2. Submit a review 3. View book detail as a different user	Newly purchased and reviewed book	New review and updated average rating are visible to other users	Pending	Pending
FR-10_ST02	Ratings & Reviews	Admin removal of inappropriate review recalculates rating	Flagged review exists	1. Admin removes a flagged review 2. Check book's average rating	Removed review had rating = 1	Review removed; average rating recalculated without the removed entry	Pending	Pending
FR-11_UT01	Discount / Coupon	Apply valid active coupon calculates discount correctly	Cart has items; coupon is active	1. Enter a valid coupon code at checkout 2. Apply	coupon = SAVE10 (10% off), cart = ₹1000	Discount of ₹100 applied; total = ₹900	Pending	Pending
FR-11_UT02	Discount / Coupon	Reject expired coupon code	Coupon's expiry date has passed	1. Enter an expired coupon code 2. Apply	coupon = OLD20 (expired)	Error "This coupon has expired" shown	Pending	Pending

Test Case ID	Name of Module	Test Case Description	Pre-conditions	Test Steps	Test Data	Expected Results	Actual Result	Test Result
FR-11_UT03	Discount / Coupon	Reject invalid/non-existent coupon code	N/A	1. Enter a coupon code that does not exist 2. Apply	coupon = FAKE99	Error "Invalid coupon code" shown	Pending	Pending
FR-11_IT01	Discount / Coupon	Coupon usage limit enforced against DB usage count	Coupon has reached its max usage count	1. Attempt to apply a coupon already used its maximum allowed times	coupon usage = 100/100 limit	Error "Coupon usage limit reached" shown; discount not applied	Pending	Pending
FR-11_IT02	Discount / Coupon	Coupon minimum order value validated against cart total	Coupon requires minimum order value	1. Apply coupon with cart total below required minimum	coupon min order = ₹500, cart = ₹300	Error "Minimum order value of ₹500 required" shown	Pending	Pending
FR-11_IT03	Discount / Coupon	Discount correctly reflected in amount sent to payment gateway	Valid coupon applied	1. Apply valid coupon 2. Proceed to payment 3. Verify amount sent to gateway	Cart ₹1000, discount ₹100	Payment gateway receives ₹900 as the charge amount	Pending	Pending
FR-11_ST01	Discount / Coupon	End-to-end apply coupon and charge discounted total	User logged in with items in cart	1. Add items to cart 2. Apply valid coupon at checkout 3. Complete payment	Valid coupon + valid cart	Order confirmation shows correct discounted total; payment matches	Pending	Pending
FR-11_ST02	Discount / Coupon	Second coupon rejected when stacking is not allowed	One coupon already applied	1. Apply first valid coupon 2. Attempt to apply a second coupon	Coupon A applied, Coupon B attempted	Error "Only one coupon can be applied per order" shown	Pending	Pending
FR-12_UT01	Admin Moderation	Reject suspending an already-suspended account	Target account is already suspended	1. Admin attempts to suspend an already-suspended user	User status = already Suspended	Error/no-op message "Account is already suspended" shown	Pending	Pending
FR-12_UT02	Admin Moderation	Reject approving an already-approved listing	Listing status is already Approved	1. Admin attempts to approve an already-approved listing	Listing status = Approved	Message "Listing is already approved" shown; no duplicate action taken	Pending	Pending
FR-12_UT03	Admin Moderation	Require reason/comment when rejecting a listing	Admin viewing a pending listing	1. Click Reject without entering a reason 2. Submit	reason = (blank)	Error "A reason is required to reject a listing" shown	Pending	Pending
FR-12_IT01	Admin Moderation	Suspending a seller hides all their active listings	Seller has 3 active listings	1. Admin suspends the seller account 2. Buyer searches for seller's books	Seller with 3 active listings suspended	All 3 listings no longer appear in buyer-facing search	Pending	Pending
FR-12_IT02	Admin Moderation	Removing a listing does not affect existing order records	Listing has completed past orders	1. Admin removes the listing 2. Verify past order records still intact	Listing with 2 historic orders	Listing removed from catalog; past orders remain unaffected (FK integrity)	Pending	Pending
FR-12_IT03	Admin Moderation	Admin actions logged in audit log table	Audit logging (SYS-8) enabled	1. Admin performs a moderation action (approve/suspend/remove) 2. Query audit log table	Any moderation action	Audit log contains a new entry with admin ID, action, and timestamp	Pending	Pending
FR-12_ST01	Admin Moderation	End-to-end review and rejection of a flagged listing	A listing has been flagged for review	1. Admin opens flagged listing 2. Enters rejection reason 3. Rejects the listing	One flagged listing	Listing is removed/hidden from buyer-facing search after rejection	Pending	Pending
FR-12_ST02	Admin Moderation	Non-admin denied access to moderation endpoints	Logged in as a buyer or seller	1. Attempt to directly access an admin moderation URL/endpoint as a non-admin user	Role = Buyer or Seller	Access denied (403) per role-based access control (SYS-7)	Pending	Pending

Test Case ID	Name of Module	Test Case Description	Pre-conditions	Test Steps	Test Data	Expected Results	Actual Result	Test Result
FR-13_UT01	Invoice Generation	Generated invoice numbers are unique and correctly formatted	N/A	1. Generate invoice numbers for two different orders	Two distinct orders	Each invoice number is unique and follows the defined format	Pending	Pending
FR-13_UT02	Invoice Generation	Invoice total correctly sums line items, tax, and shipping	Order line items known	1. Compute invoice total from items + tax + shipping	items = ₹500, tax = ₹25, shipping = ₹50	Invoice total = ₹575	Pending	Pending
FR-13_UT03	Invoice Generation	Handle missing tax rate configuration gracefully	Tax config missing for a region	1. Generate invoice for an order where tax rate config is missing	tax config = not set for region	Falls back to default/zero tax with a logged warning, no crash	Pending	Pending
FR-13_IT01	Invoice Generation	Invoice auto-generated on successful payment	Payment integration configured	1. Complete a successful payment 2. Check for generated invoice record	Order paid successfully	Invoice record created and linked to the order automatically	Pending	Pending
FR-13_IT02	Invoice Generation	Invoice pulls correct buyer, seller, and item data from multiple tables	Order has known buyer/seller/items	1. Generate invoice for a known order 2. Verify each field against source tables	Sample order with known parties	All invoice fields match the corresponding DB records exactly	Pending	Pending
FR-13_IT03	Invoice Generation	Invoice reflects updated amount after a partial refund	Order partially refunded	1. Process a partial refund on an order 2. Regenerate/view the invoice	Original ₹1000, refunded ₹200	Invoice reflects net payable amount of ₹800	Pending	Pending
FR-13_ST01	Invoice Generation	End-to-end payment to invoice availability	User completing checkout	1. Complete payment 2. Download/view invoice immediately after	Any completed order	Correct invoice is available to the buyer right after payment success	Pending	Pending
FR-13_ST02	Invoice Generation	Multi-seller order invoice itemized per seller	Order contains items from 2 different sellers	1. Place an order with items from 2 sellers 2. Generate invoice	Order: Seller A item + Seller B item	Invoice correctly splits/itemizes charges per seller	Pending	Pending
FR-14_UT01	Password Reset	Generic response for reset request on unregistered email	N/A	1. Request password reset using an email not in the system	email = notregistered@example.com	Generic "If this account exists, a reset link has been sent" shown (no account enumeration)	Pending	Pending
FR-14_UT02	Password Reset	Reject incorrect OTP entry	A valid OTP was issued	1. Enter an incorrect OTP on the reset form	OTP entered = 000000 (wrong)	Error "Incorrect OTP" shown; reset not allowed	Pending	Pending
FR-14_UT03	Password Reset	Reject new password that fails policy on reset form	User reached the "set new password" step	1. Enter a new password shorter than policy minimum	new password = abc	Error "Password must be at least 8 characters" shown	Pending	Pending
FR-14_IT01	Password Reset	Reset request integration sends time-limited OTP/link via email	Email service configured	1. Request password reset for a registered email	email = registered_user@example.com	Email service sends OTP/reset link with a defined expiry window	Pending	Pending
FR-14_IT02	Password Reset	Expired OTP no longer accepted	OTP issued more than allowed validity window ago	1. Wait past OTP expiry 2. Attempt reset using the expired OTP	OTP older than expiry window	Error "OTP has expired, please request a new one" shown	Pending	Pending

Test Case ID	Name of Module	Test Case Description	Pre-conditions	Test Steps	Test Data	Expected Results	Actual Result	Test Result
FR-14_IT03	Password Reset	Successful reset updates password hash immediately	Valid OTP entered	1. Complete reset with valid OTP and new password 2. Query DB for password hash	New password = NewPass123!	DB password hash updated; old password no longer valid for login	Pending	Pending
FR-14_ST01	Password Reset	End-to-end reset and login with new password	User has forgotten password	1. Request reset 2. Enter received OTP 3. Set new password 4. Log in with new password	Full reset flow with valid OTP	Login succeeds using the newly set password	Pending	Pending
FR-14_ST02	Password Reset	Reused OTP/link rejected after a successful reset	OTP was already used once successfully	1. Attempt to reuse the same OTP/reset link a second time	Already-used OTP	Error "This reset link/OTP is no longer valid" shown	Pending	Pending
FR-15_UT01	Wishlist	Add a book to wishlist successfully	Wishlist is empty	1. Open a book detail page 2. Click "Add to Wishlist"	Any valid book	Book appears in the user's wishlist	Pending	Pending
FR-15_UT02	Wishlist	Prevent duplicate wishlist entry for same book	Book already in wishlist	1. Click "Add to Wishlist" again for a book already saved	Book already present in wishlist	No duplicate entry created; message "Already in wishlist" shown	Pending	Pending
